

## Press Release

# Delphi Expands its Western Presence & Capacity to Service its Corporate Clients

**Ottawa, ON, April 16, 2010:** The Delphi Group is pleased to announce the appointment of Evelyn Walker who will be joining as a Vice President Western Canada, based in Calgary. Evelyn's appointment will allow Delphi to better service the needs of our western clients and lead The Delphi Group's expansion efforts in Alberta and BC, where we will continue to provide our clients with integrated products and services in the areas of [Corporate Sustainability](#) and [Climate Change](#) services.

Ms. Walker has a Bachelor of Commerce and is a qualified Chartered Accountant. She brings to Delphi over 30 years experience with the energy sector in Calgary, including, corporate risk management, climate change and air quality policy, strategy and markets as well considerable knowledge of emissions reductions, carbon credit transactions, contracts and project due diligence.

*"Evelyn's extensive experience and expertise will be a fabulous complement to our team and we are excited that she will be joining The Delphi Group. Evelyn will not only be able to offer a truly local contact for our western clients but we will be able to provide our clients with an increased level of expertise in the area of strategic risk management, governance, disclosure and emissions trading. I am pleased and proud to welcome Evelyn to our team!"* Mike Gerbis, CEO – The Delphi Group.

Evelyn formerly served as:

- Director, Risk and Finance for Natsource Asset Management Corp where she co-managed GG-CAP, the world's first private sector Pool (valued at €500 million on close) designed to assist 26 international large industrial and power companies to comply with greenhouse gas (GHG) emission reduction requirements.
- Manager of Climate Change and Air Policy and Manager for Commercial Risk Assessment Trading and Business Development with TransCanada Corp.

About The Delphi Group: Since 1988, we have been providing climate change and sustainability services in Canada and around the globe. Over the last two decades, we have completed over 500 sustainability, climate change and environmental projects for more than 200 organizations The Delphi Group is now working with 7 of Canada's largest 15 companies (17 of the top 100) and these companies combine to represent an incredible 20% of Canada's GDP.
