

The Delphi Group - Corporate Profile

The Delphi Group

The Delphi Group is a Canadian strategic consultancy and solution provider specializing in climate change and corporate sustainability. Since 1988, we have worked with more than 200 clients and have provided services to virtually every sector in the economy.

Our corporate clients range from SME's to some of Canada's largest corporations and in recent years we have completed projects for 15 of Canada's 50 largest corporations. Our public sector clients are from all levels of government including ministries, government departments and intergovernmental agencies.

Delphi Products & Services

At Delphi we help organizations develop and effectively deploy environmentally responsible business strategies that are financially viable and enhance long-term performance. Over the years, we have literally done hundreds of projects in over 20 countries around the globe.

Climate Change Services

At Delphi, we help organizations assess, understand and manage the risks and opportunities presented by climate change and a carbon constrained world. From GHG inventories and compliance management to policy analysis and corporate GHG strategy development, we provide a full spectrum of climate change services including:

- Climate Change Strategy Development & Implementation
- GHG Inventory & Reporting
- Regulatory Policy Design & Analysis
- GHG Reductions & Offset Project Development
- Market Analysis, Feasibility Studies & Program Management
- Training, Awareness & Facilitation

Sustainability Services

At Delphi, we help companies develop and deploy sustainability strategies that are financially viable and enhance long-term performance.

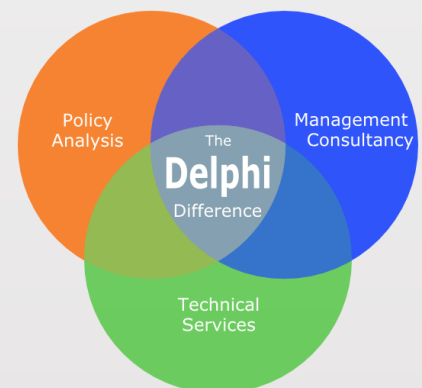

The Delphi Difference

Our experience

Since 1988, we have completed more than 500 sustainability and climate change projects for clients in Canada and around the globe. **No other company in Canada has been providing sustainability and climate change services as long as we have.**

Our expertise, thought leadership and core competencies

As a pioneer in this field, our expertise, thought leadership and core competencies in technical services, policy analysis and management consultancy separate us from the crowd. **We deliver innovative, valued and trusted solutions more effectively than anyone else in this field.**

As Canada's first sustainability consultancy, we have been involved in all things 'sustainability' from greening the Canadian Pacific hotels in 1990 to founding and facilitating the [Excel Partnership](#) - which for more than ten years has enabled sustainability excellence in some of North America's largest corporations. Our sustainability services include:

- Sustainability Strategy Development & Implementation
- Branding, Communication & Reporting
- Market Analysis, Feasibility Studies & Program Management
- Training, Awareness & Facilitation
- The EXCEL Partnership

Delphi Products

We provide a range of software solutions to help clients improve the efficiency and effectiveness of their GHG management and sustainability initiatives. Trusted by some of North America's largest corporations, our products solve complex management problems, minimize risk and cost and improve overall performance. Our products include:

- GHG Compliance & Credit Manager
- GHG Marginal Abatement Cost Calculator
- Sustainability Risk Assessment tool

The Delphi Value Proposition

Being able to deliver value through experience, **our clients trust our solutions to reduce costs, liabilities and risk while improving brand, stakeholder relations, corporate competitiveness and shareholder value.**
