Call or email now for your copy: bfowler@delphi.ca | 613-562-2005 x238

Report cost: \$1200

▶ Delphi's *Copenhagen: Results and Implications* brief will help you understand the implications of a new climate agreement on North American business.

Copenhagen: Results and Implications includes:

- Outcomes of main COP15 objectives:
 - Mitigation commitments and action plans including emissions reduction targets for developed countries and mitigation commitments for developing countries
 - Finance provided by developed countries to developing countries for mitigation and adaptation activities
 - Technology development and transfer commitments
 - Capacity-building commitments
- Potential impacts to Canadian business and industry
- Comparative analysis of Copenhagen targets and timelines with:
 - Kyoto targets and timelines
 - Current Canadian and provincial (BC, Alberta, Ontario, Quebec) targets and timelines
 - Current proposed US targets and timelines

Delphi clients include:

BC Hydro	Epcor
Direct Energy	ATCO
EnCana	TransAlta
Ontario Power Authority	TransCanada
Union Gas	Toronto Hydro
Connacher Oil and Gas	Husky Energy
